

SUMMARY

Frontend engineer with 7+ years of experience building enterprise applications and a background in UX and product design. Passionate about creating intuitive, accessible interfaces through thoughtful engineering and scalable design systems.

EXPERIENCE

Contract UI/UX Designer

June 2025 - Present

InTouchLink

- Designed improvements and new features for a cloud-based resident engagement platform serving senior living communities.
- Redesigned existing workflows and introduced new interaction patterns while maintaining consistency across the product.
- Created high-fidelity prototypes and design specifications to support engineering implementation.

Software Engineer II

May 2023 - Present

Dynamic Yield by Mastercard

- Developed frontend features for an enterprise email template builder, improving usability for enterprise marketers.
- Contributed to a shared design system by building reusable UI components that accelerated feature development.
- Partnered with product and design teams to ensure accessible, consistent feature implementations.

Software Engineer

September 2020 - May 2022

Loyal

- Built reusable UI components as part of Loyal's design system.
- Designed and developed a product approval workflow, closing a key competitive feature gap.
- Enhanced the editing experience by implementing rich text capabilities using extensible plugins and custom utilities.

Adjunct Professor - Web II

March - June 2021

Drexel University

- Taught second-year Graphic Design students the fundamentals of responsive web development.
- Guided students in designing and building production-ready single-page websites.
- Evaluated projects based on technical implementation, design quality, and user experience principles.

Frontend Developer

December 2019 - September 2020

Maxar Technologies

- Developed features for a document query application built with Angular and Elasticsearch.
- Improved UI consistency through modern CSS architecture and frontend best practices.
- Increased unit test coverage by 50%, improving reliability and maintainability.

Website Developer

September 2017 - December 2019

Oracle Data Cloud

- Translated high-fidelity mockups into responsive, production-ready web pages
- Built reusable components for Oracle Data Cloud's design system.
- Consolidated AddThis.com stylesheets, creating a DRYer codebase and improving page performance.
- Spearheaded development of a multi-page website enabling Oracle Data Cloud's GDPR compliance.

SKILLS

Design

Figma
UX Design
Interaction Design
Design Systems
Accessibility
Prototyping
Wireframing
User Research

Code

React
TypeScript
Storybook
JavaScript
GraphQL
React Query
HTML
CSS
Git
Jest
Cypress
Angular

EDUCATION

King's College (FourthRev)

UX Design Career Accelerator
Sept 2023 - April 2024

General Assembly

Web Development Immersive
March - June 2017

Drexel University

Bachelor of Science in
Graphic Design
Sept 2010 - June 2014
